

NUR 550 Topic 6: Quality Improvement Initiatives And Clinical Prevention Intervention

NUR 550 Topic 6: Quality Improvement Initiatives And Clinical Prevention Intervention

Objectives:

- Integrate appropriate information and communication technologies for a clinical preventive intervention.
- Evaluate clinical prevention interventions that promote health and wellness for populations.

Topic 6 DQ 1

Assessment Description

Evaluate a clinical preventative intervention designed to promote health and wellness for populations. Summarize the intervention and explain whether it has been successful. You will use the clinical preventative intervention you select for DQ2.

Topic 6 DQ 2

Assessment Description

Discuss how to integrate appropriate information and communication technologies for the clinical preventative intervention in DQ 1 to improve nursing practice and care delivery for individuals and populations.
